

Hi,

WOW!!!! Just about says it all. It has been almost a month since Nikki and Joe got married at the Renaissance Place. I have lost count with how many people have said that the food was amazing. The service was outstanding. I even had people say that they stopped the waiters to tell them that the service was outstanding. The linens were just right and the floor length linens made the room look even more elegant.

Again, the food was amazing, presented just like we tasted it.

It really says alot, when guests are still talking about the wedding, mostly making comments about the food and service. Almost 4 weeks later, saying it was the best wedding they had ever been to.

Thanks again
