Chef Jack:

WOW, what a night! Our reception could not have been a better time for our guests and ourselves thanks in no small part because of the outstanding food and service that your organization provided.

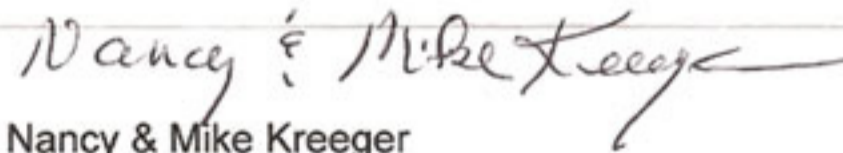

Let me start with the food. Maybe the best way to express it is by what our priest said. This priest is a close friend of ours and shoots us straight. He obviously attends many weddings, but said this was by far the best food he has ever had at any wedding he attended. Many of our guests simply echoed his comments. By the way, the slider bar was an outstanding crowning touch to a great night.

Good food is one thing, but the caring service your staff provided was unbelievable. When my wife and I arrived at Cuvee about an hour before the reception was scheduled to start, there were a few things different than what we expected. Your staff simply did whatever we wanted them to do so that the room was exactly what we wanted. Then they continued to treat us and every guest as if they were the guests of honor.

I would be remiss if I didn't point out the incredible personal service that Andy gave to me (and I'm certain everybody else he came into contact with). He simply made me feel like the most important person in the world. When he saw that I took off my shirt in the restroom to freshen up before the reception, he took the hanger from his serving clothes and hung up my shirt so that it wouldn't be wrinkled. What an incredible person!

When we booked with Chef Jack we knew we would have good food and service. What we experienced was outstanding. Thank you for make a special day a great day!

Gratefully,

Nancy & Mike Kreeger
